Brieva, Erik

Named Top 50 Most Admired CEOs (The Technology Headlines, USA, 2019), Top 100 Leaders of the Future (Capital Magazine, Spain, 2009), and Entrepreneur of the Year (Entrepreneurs Magazine, Spain, 2006).

CEO at Strands Inc., Founder of Bcombinator, Board Member and President of the Entrepreneurship Commission 22@Barcelona, Member of Entrepreneurs' Organization (EO), and Academic Director of the Lean Startup Incubation postgraduate at UPC.

Previously, founded Polymita Technologies (acquired by Red Hat) recognized as a Visionary by Gartner BPM Magic Quadrant 2009 & 2010 and Major Player by IDC MarketScape 2011. Co-founder of Intelligent Software Components - iSOCO (acquired by Santander) and Enzyme Advising Group (acquired by Nexe Group).

Kunze, Christophe

Christophe is Professor for Assistive Health Technologies and Director of the Care & Technology Lab at Furtwangen University of Applied Sciences, Germany. Having a medical engineering and IT background, he is now working in a health sciences department. His research and teaching activities are focusing on user-centered design of healthcare technologies and on implementation and evaluation of technology-based interventions in health and social care. Research Projects are covering a broad range of applications, including dementia care, caring communities, and mobile interventions for health promotion. He is also co-founder of the Health IT company nubedian (Karlsruhe, Germany).

Lilienthal, Anneliese

Anneliese is part of Unit for Bioentrepreneurship at the Department for Learning, Informatics, Management & Ethics, and the Division of Occupational Therapy at the Department of Neurobiology, Care Sciences, and Society at Karolinska Institutet (KI) in Stockholm Sweden.

Between these departments she manages EU innovative eLearning projects and lectures on scientific communication and presentation at both the masters and doctoral levels. Anneliese holds master degrees in global health (KI) and medical illustration (Medical College of Georgia, USA), with specific focus on health communication, pedagogy, and innovation. In 2011, Anneliese became a certified medical illustrator (CMI), and in 2016 was honored as a Fellow of the Association of Medical Illustrators (FAMI). From 2008-2012, Anneliese was a producer of 3D medical animations at XVIVO Scientific Animation. In this role she not only helped develop animations, but also interactive programs, dynamic presentations and static images for leading pharmaceuticals, medical device companies, and the general public. This background allows her to serve as a translator of complex medical information into educational multimedia, and as a facilitator between diverse stakeholders in science communication such as care providers, researchers, innovators, educators, informaticians, patients, epidemiologists, programmers, communicators, designers and citizens.

Martinez Nuñez, Xavier

Professional Innovation and Entrepreneurship. Passionate about Smart Cities and the new industrial revolution. Also for the new social paradigm that they can represent. Certified Project Manager (PMI) and Certified ITIL Foundation, specialist in the field of ICT.

Business developer and connoisseur of the technologies involved in the different business areas, with a focus on client and project, as well as to create services "Taylor made" in each case.

Disseminator and lecturer in different fairs and conferences in different fields, as well as participant in different tables of standardization, standardization and regulation of the electronics and telecommunications sector. Very involved in the associative world, I believe in associations as drivers of change and support for professionals and entrepreneurs. My development in this field has allowed me to meet and enjoy a large number of professionals in the sector as well as establish friendships with many of them, something of which I am most proud.

Torras, Carme

Carme Torras is Research Professor at the Spanish Scientific Research Council (CSIC). She received M.Sc. degrees in Mathematics and Computer Science from the Universitat de Barcelona and the University of Massachusetts, respectively, and a Ph.D. degree in Computer Science from the Technical University of Catalonia (UPC).

She is ECCAI Fellow (2007), member of Academia Europaea (2010), member of the Reial Acadèmia de Ciències i Arts de Barcelona (2013), and Editor of the IEEE Trans. on Robotics.
